EXP.NO-4	Form Design for a Business Application(Basic Fields)

AIM:

To design and build a **Hotel Room Booking Form** in Zoho Creator using all 13 Basic Fields, with appropriate validations and a report for managing room booking requests.

INTRODUCTION:

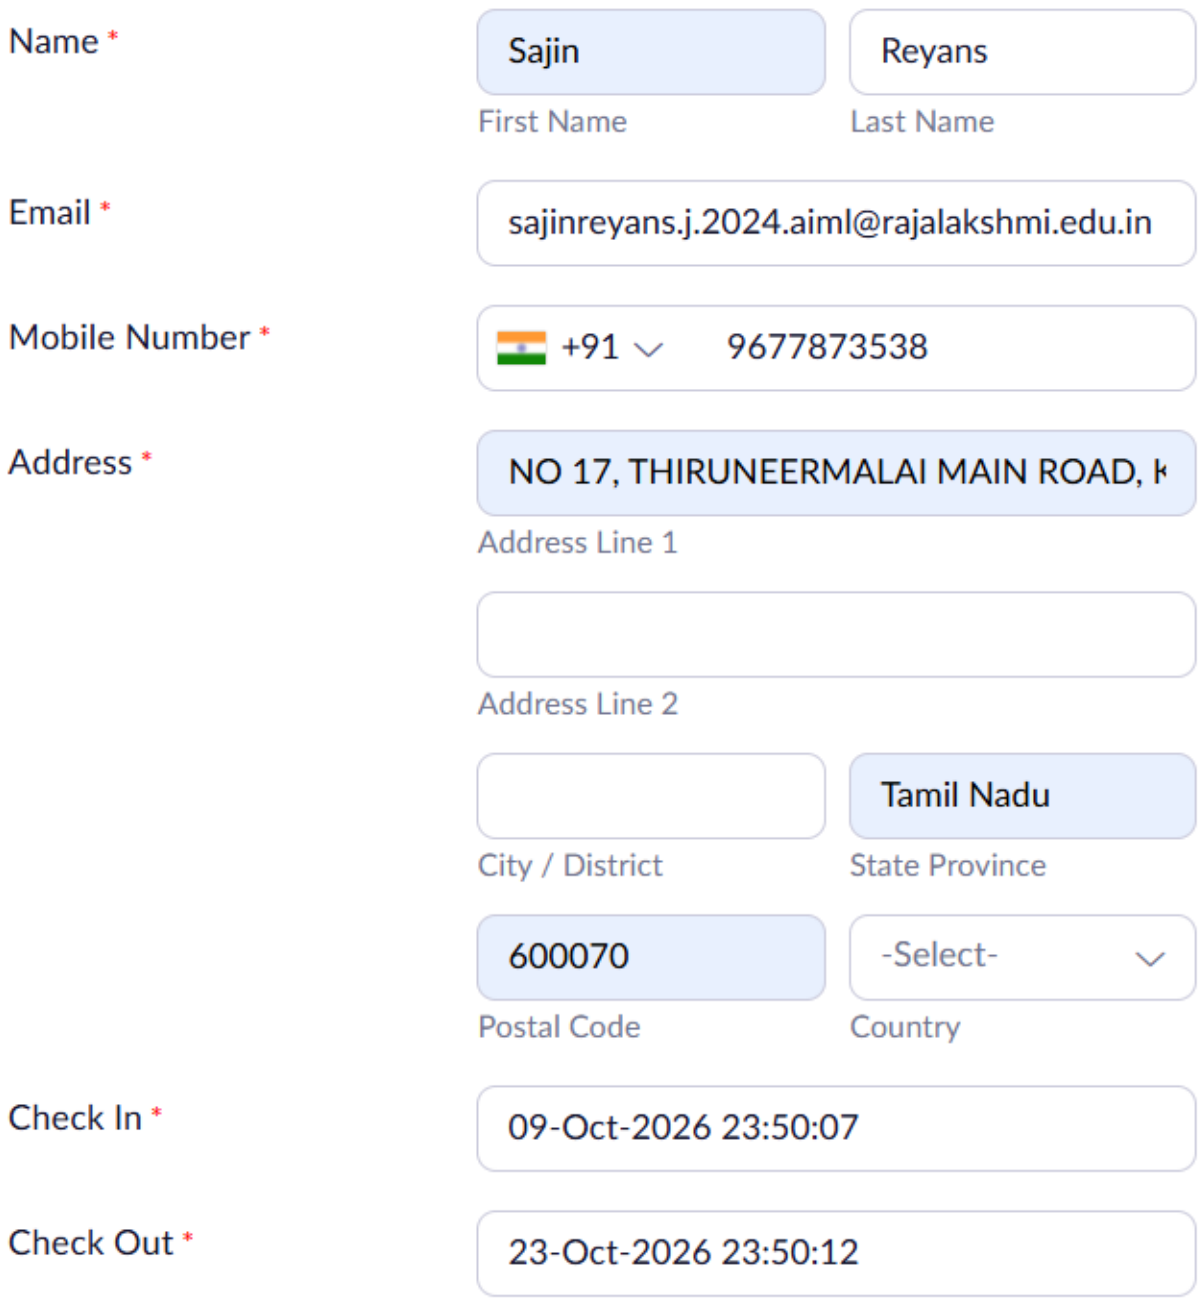

The application **Hotel Room Booking & Front Office Management** is designed to help guests submit room booking requests in a structured manner. The form captures guest details, contact information, identification details, room and stay preferences, scheduling, and acknowledgement of hotel policies. Mandatory fields and validation rules are applied to improve the accuracy and completeness of the collected information.

Hotel Room Booking System:

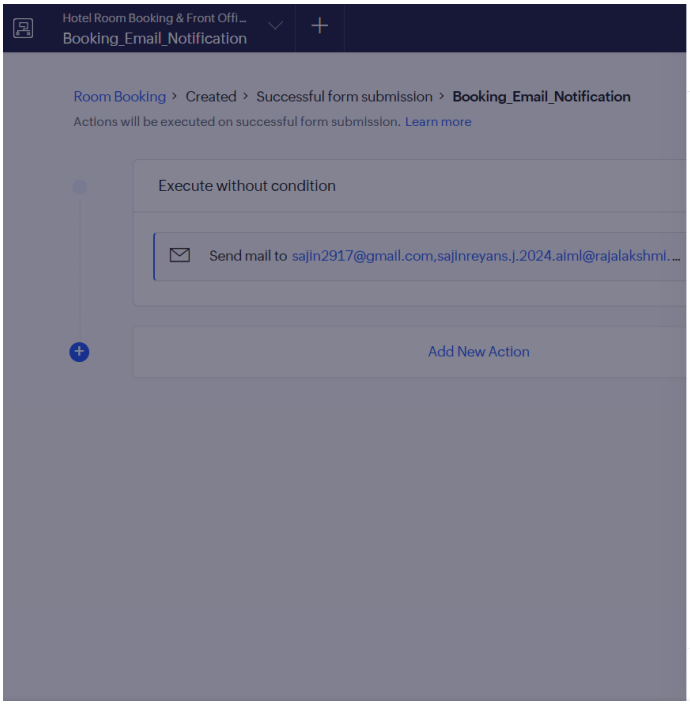

Field Name	Field Type	Purpose of Collected Data	Validation	Mandatory
Guest_Name	Name	Collects the guest's full name using First Name and Last Name sub-fields.	Accepts alphabetic input; first and last names captured separately.	Yes
ID_Proof_Number	Single Line	Collects the guest's identification document number.	Accepts short text input.	Yes
Number_Of_Guests	Number	Collects the total number of guests staying.	Value restricted to a range of 1 to 6 per room.	Yes
Email_Address	Email	Collects the guest's email address for booking confirmation.	Built-in email format validation.	No
Contact_Number	Phone	Collects the guest's mobile number for the front desk to confirm and coordinate the booking.	Indian phone number format with +91 country code.	Yes
Permanent_Address	Address	Collects the guest's permanent residential address for records and billing.	Uses structured address fields.	No
Room_Type	Drop Down	Allows the guest to choose the room category.	Single selection from predefined room category list.	Yes
Meal_Plan	Radio	Collects the guest's meal plan preference.	Single selection only (Room Only / Breakfast Included / All Meals Included).	Yes
Amenities_Required	Multi Select	Collects additional amenities requested for the stay.	Multiple predefined options can be selected.	No
Special_Requests	Multi Line	Collects free-text remarks for any special requirements during the stay.	Accepts multi-line text input.	No

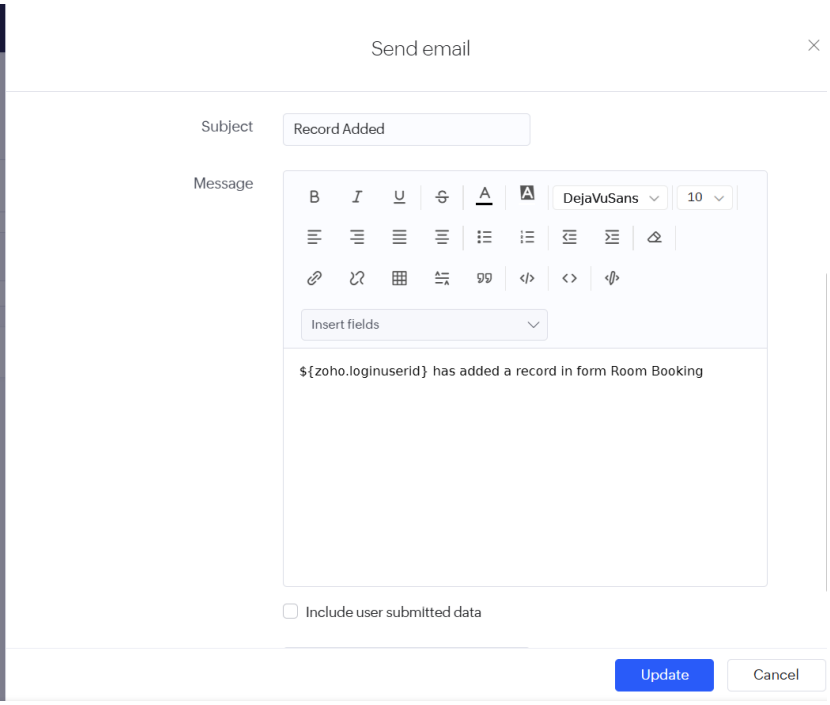

Check_In_ Date	Date	Collects the guest's intended check-in date.	Past dates are not allowed	Yes
Preferred_ Checkin_Time	Time	Collects the guest's expected arrival time at the hotel.	Uses built-in time picker.	No
Agree_To_ Hotel_Policies	Checkbox	Records the guest's acknowledgement of the hotel's check-in/check-out and cancellation policies.	Must be checked before form submission.	Yes
